# Correction: Analysis of the efficacy of subclinical doses of esketamine in combination with propofol in non-intubated general anesthesia procedures - a systematic review and meta-analysis

Haoming Chen[1,2†], Xizhi Ding[2†], Guilin Xiang[3], Liu Xu[4], Qian Liu[4], Qiang Fu[5*] and Peng Li[1,2,6*]

**Correction: BMC Anesthesiol 23, 245 (2023)**
https://doi.org/10.1186/s12871-023-02135-8

Following publication of the original article [1], the authors reported an error found in affiliation 1. The correct affiliations should be "Department of Anesthesiology, Affiliated Hospital of Southwest Medical University, Luzhou, China" instead of "Southwest Medical University, Luzhou, China.".

The original article [1] has been updated.

†Haoming Chen and Xizhi Ding contributed equally to this work.

The online version of the original article can be found at https://doi.org/10.1186/s12871-023-02135-8.
